5/2/2011

Dear Directors, Alumni, Students, and Friends,

This letter is to inform you of the emergency roof replacement that has to be made to the campus buildings. The roofs are old and have had patch repairs made until it is time to replace the roofs. Last month the ceiling fell in on one of the buildings, which required a water damage repair job and ceiling replacement etc., which was not covered by insurance. Without a good roof, we will soon not have a campus building, the water damage, mold, etc. will take its toll on the buildings and we will not be able to occupy them.

Our Chancellor, Dr. Thompson, is seventy-four years old and does not need these taxing worries with roof problems, broken plate glass windows and maintenance, added to the extremely long hours she works here at home. These worried and pressures come because of the lack of finances to make the needed repairs.

Finances have been extremely slow in coming in. If we owe for tuition or for materials that have not been paid, we need to attend to this right away. Some folks have made financial as well as physical sacrifices to help with these problems, but we need to pull together as a unit of Christian brothers and sisters with a burden to see the Gospel go forth to the Nations, through quality education, pastoral training and church planting.

A sacrifice costs you something as it did the Children of Israel in the Old Testament. They could have taken their sacrifices and had some good eating and partying, but it cost them an animal. For us to make a sacrificial offering it will cost us something, but if it does not cost us, we have not made a sacrifice. If one hundred would make a One Hundred Dollar (\$100.00) sacrifice that would be Ten Thousand Dollars (\$10,000.00), even though this amount would not take care of all the repairs that need to be made, it would really be a tremendous help. If you can't make a sacrificial offering of that much, do not think that a smaller offering is not worth sending or is not appreciated. If some would let God speak in their hearts, they could make an offering in the Thousands of Dollars. If you are making a monthly offering, we appreciate that you are letting God speak to your heart, if not please pray to see if God would have you support this Ministry. I am not asking you to make a sacrifice that my wife and I have not or am not making ourselves. I have learned over the years that a good leader must set an example for others to follow. In Matthew 28:19, we are commanded to go. We know that we can't all go to the Foreign Nations to preach and teach the Gospel but we can support the ones that are going and the ones that are training pastors and missionaries, sending them forth to preach and teach the Gospel, the ones that are helping folks here in the states to get a quality Christian education.

Over the past 20 years AMT has made a great impact with Bible College materials, elementary and high school courses, as well as ministry and missions education both nationally and internationally. I am excited about what God is doing in the hearts and minds of His people, opening our eyes to the exciting things He is doing here in America and in the Nations. You can feel the excitement that something is in the air. It feels like Jesus could split the Eastern sky at any moment, coming to take His bride away.

Let us help bear the load Dr. Thompson and the staff are bearing. You can never know the extent of what God has accomplished through AMT or the amount of work that is required unless you are here to see for yourself. We love you. This is the prayer we pray for you, "Lord we pray Your blessing on our brother and sisters. Father, those that do not have a job, we know that You will make way for a good paying job and we believe with them now, that it is done. May You bless all with divine health, perfect peace, peace that passes all understanding, prosperity and financial blessings."

Yours in Christ's Service,

Dr. James E. Beard
